## ACCUSPLIT

**Accusplit** stopwatches are professional timing devices with significantly increased functionality. AX PRO features large digits for easy viewing field, track, or by the pool add to the appeal of these stopwatches. Accurate to #1 second per 15 minutes. The AX PRO series now features Twin Left-Right button operation feature. This allows you to start, split and reset using the fingers you want. As before, AOS watches have One Button Rapid Split/Reset (2 sec).
