Size: 6" x 3.5"

200360 **Each 3+**  
\$18.65 17.45

## SWIMSTART Electronic Start System

The SWIMSTART Electronic Start from International Sports Timing includes portable PA, tone and strobe start signals, and recall tone in a compact case. May be used stand-alone or interfaced to IST's SWIMWARE Timing System or other timing systems. Includes forty watt speaker and jack for auxiliary speaker/s. No-tip feet allow unit to be placed directly on deck, or attach to backstroke pole with latching straps. Our internal, rechargeable 12VAC cell battery has a charging light and intelligent charging circuit so you can't over-charge. Order 25 foot cable to connect to timing system separately, if needed. Custom cable lengths also available.

**Electronic Start System ..... \$780.00**  
**SWSTCBL-25' Cable to Timing System. . 70.00**

### Specifications:

Physical: 12" high x 8" wide x 4" deep, Weight: 22 pounds, Aluminum - black epoxy finish, Plexiglass lens over strobe.  
Power: Internal, rechargeable 12V gell cell battery with overcharge protection circuit, Est. use per charge: 12 hrs., 110V to 38V AC wall transformer for charging.  
Strobe: 6,000 v. xenon strobe bulb.  
Speaker: 40 watt, 120 db speaker on case, Auxiliary jack for extra speakers.  
Microphone: Talk and start/recall switches, 15 foot cord and hanging clip  
Output to Timing System: Includes normally-open and normally-closed outputs.  
Mounting: Non-tip feet allow unit to be placed directly on deck, Latching straps for backstroke flag pole mount included.

## SWIMSTART Remote Start

Add the Remote Start Transmitter/Receiver package to your SWIMSTART or other electronic start and give your officials the freedom to focus on the race without worrying about wires. Uses the latest 900 MHz technology. Has 8 selectable channels so you get fair starts without interference from other wireless devices. Encoded start and audio signals make accidental starts virtually impossible. Put Receivers on two starts and trigger both with one Transmitter. Give Transmitters to both the starter and referee, and either can use the PA or send a recall signal. FCC approved. 9 volt battery not included. 5 year warranty.

### SWREMOTESTRT

**Remote Start Transmitter/Receiver ..... \$520.00**  
**STARTRCVR Extra Receiver ..... 270.00**  
**STARTXMTR Extra Transmitter..... 270.00**  
**Please specify type of start you are using.**

### Specifications:

Transmitter: 5" high x 2.75" wide x 1" deep, Weight: .25 pounds, High impact ABS plastic case, Lanyard neck strap, 903.3 MHz - 921.3 MHz signal, 8 user selectable channels, Security coded start & audio signal, 9 volt alkaline battery, Low battery warning, Estimated battery life: 20 hours of continuous transmission, No FCC operator license required.  
Receiver: 5.5" high x 3.5" wide x 1.25" deep, Weight: .5 pounds, High impact ABS plastic case, 903.3 MHz - 921.3 MHz signal, 8 user selectable channels with LED channel display (not included in non-SWIMSTART models), Easy to read LED status indicators, Highly sensitive (-97dBm typical), Powered by SWIMSTART (Non-SWIMSTART models powered by 9 volt battery).

## POWERED MEGAPHONES

**10 Watt 92-655 \$94.90**  
Adjustable to full output as battery decreases. 300 yd. range. Dimensions: 6-1/4" x 13"  
Weight: 5-1/4 lbs.  
(Requires 8 "AA" Cells)

**16 Watt 92-670 \$133.00**  
Built in signal alarm and solid state push-pull amplifier. Volume control. Carrying strap. 600 yd. range. Dimensions: 7" x 14"  
Weight: 5 lbs. (Requires 6 "C" Cells)

**20 Watt 92-680 \$161.25**  
Class B amplifier incorporates a powerful signal alarm for use as fog horn. 800 yd. range. Dimensions: 9" x 14"  
Weight: 6-1/2 lbs. (Requires 8 "C" Cells)

**25 Watt 92-690 \$189.25**  
Detachable microphone or use conventionally. Built in signal alarm for warning alert. 1,000 yd. range. Dimensions: 9" x 15"  
Weight: 7-1/2 lbs. (Requires 8 "C" Cells)

**20 Watt w/Whistle Switch 92-695 \$167.95**  
Same as 92-680 with whistle switch.

**3 Watt 92-653 \$66.50**  
A budget priced, compact power megaphone. 200 yd. range. Dimensions: 11" x 5-3/4"  
Weight: 2 lbs. (Requires 6 "AA" Cells)

## MEGAPHONES

Full color high density plastic megaphones include chrome plated metal mouth piece and attachable handle.

**COLORS:** White, Red, Royal, Yellow-Gold, Black, Orange, Kelly or Navy.

White "Decorator" megaphones also shown. Decorating instructions included.
