FINIS SOLAR DIGITAL PACE CLOCK

LCD lights allow for easy reading from multiple angles and more consistent send-offs. Scrolling lights remain illuminated through 0-60 second cycle. Center digits display seconds or minutes. Rechargeable battery, 100 hours of continuous use. Solar cells constantly recharge battery in natural or artificial lighting. Includes 120V ground plug for additional operating & charging needs. Integrated handle & wheels allow for easy storage. Durable aluminum frame with water-resistant Plexiglas front. Wall-mounting kit included.

Description	Ea.	2+
Finis Solar Digital Pace Clock	\$999.95	\$933.35

FINIS CIRCUIT TRAINER

Regulates rest & exercise periods on easy-to-read display. Adjustable horn blasts give audible cue to switch to next workout station. Program time periods to count down from 5 sec. to 20 min. Program up to 99 specific workout cycles or simply run the unit forever. Includes "half-way" function for lateral exercises. Adjustable volume on unit, or can be used with external speakers. Power by two 9-volt batteries. Available outlet plug-in option. Water resistant finish makes it perfect for all environments.

Description	Ea.	2+
Finis Circuit Trainer	\$179.95	\$161.95

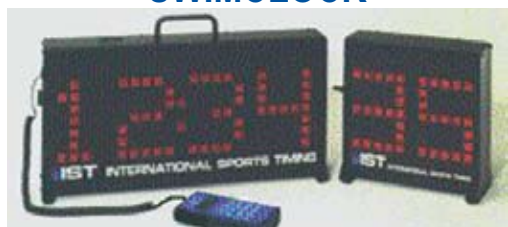

FINIS UNDERWATER PACE CLOCK

Large easy to read 10" x 10" display. Completely submersible to depths of 16ft. Integrated flip-down stand for placement on deck or below water. Uses standard 9-volt battery for 240 hours of operation. Includes detachable pole for coaches (30" in length).

Description	Ea.	2+
Finis Underwater Pace Clock	\$299.95	\$220.25
Replacement Pole	15.00	11.75

SWIMCLOCK

International Sports Timing presents the most flexible and powerful pace and game clock ever made. Using the hand-held programming pendant, enter sets, build them into workouts with send-off tones and save them all in permanent memory. E-Z Mode allows quick programming of a time with multiple reps. Use it as a stopwatch, with splits to the hundredths. The Game Clock counts up or down, and can be reset. Link multiple SWIMCLOCK's together and program with one programmer, to run synchronously. Easy to read 6.5 inch LED display has no moving parts, case is rugged aluminum. Optional internal, rechargeable 12VAC battery has a charging light and intelligent charging circuit so you can't over-charge. 10+ hours of continuous operation per charge. Outdoor versions visible in direct sunlight. All parts and labor covered by 5 year warranty. Also available in wall-mount version, same price. See page 49 for Poloware.

Part Number	Description	List	Ship Weight
SWIMCLOCK-HI	Outdoor without battery	\$1140.00	23 pounds
SWIMCLOCK-HX	Outdoor with battery	\$1300.00	35 pounds

SWIMCOUNT

IST also offers a non-programmable, count only version.

Part Number	Description	List	Weight
SHOTCLOCK-HI	2 digit pace/shot clock, w/o battery	\$520.00	12 pounds
SHOTCLOCK-HX	2 digit pace/shot clock w/ battery	\$680.00	16 pounds
SWIMCOUNT-HI	Outdoor without battery	\$780.00	23 pounds
SWIMCOUNT-HX	Outdoor with battery	\$940.00	35 pounds
SWIM-PENDANT	Programmer Upgrade	\$360.00	2 pounds

POLOWARE

IST's POLOWARE Software turns your IBM-compatible computer into a water polo game console. Maintain team rosters, score matches, keep complete match history & print reports. Add two 2-digit LED SHOTCLOCK's and a 4-digit LED SWIMCOUNT for a game clock, and you have a complete, affordable timing and scoring system for water polo. For the ultimate display of game information, add a 6, 8 or 10 lane SWIMWARE Scoreboard with scrolling message line. Displays game, shot and eject clocks, quarter, team score, name and cap number of last player to score. Use message line to sell ads during the match. Use all clocks as continuous counting pace clocks for swim training. (Existing SWIMCLOCK's may need updating to use as game clock. See Page 38 for pricing on individual SHOTCLOCK's and SWIMCOUNT/SWIMCLOCK's.)

Part Number	Description	List	Ship Weight
POLOWARE2	Software only	\$ 570.00	2 pounds
POLOWARE2+	Software, interface & cables for 2 shot & 1 game clock	\$1270.00	7 pounds
POLOWARE2+3	POLOWARE+ above with 2 SHOTCLOCK's (add \$50 for outdoor)	\$2310.00	32 pounds
POLOWARE2+3	POLOWARE+ above with 2 SHOTCLOCK's & 1 SWIMCOUNT for game clock	\$3090.00	55 pounds

COLORADO TIMING SYSTEMS Basic Pace Clock/Pro Pace/Shot Clock

BASIC PACE CLOCK

Our basic pace clock can be run as a standalone unit, or set to run in a series of pace clocks with or without a timer or controller. Every pace clock in a series displays the same information. The portable basic pace clock (pictured) includes a battery, horn, handle and legs. Each pace clock can be ordered with red (standard), green, blue or amber digits.

- Shot clock functionality available with purchase of Water Polo Kit
- Displays minutes and seconds; counts up to 59:59 and rolls over to 00:00

PRO PACE CLOCK/SHOT CLOCK

Our new Pro Pace Clock features improved clock accuracy, synchronization among multiple pace clocks and larger, 10" digits. The Pro Pace Clock also boasts 16 training modes for your athletes and customizable display options. The Pro Pace Clock includes a battery, horn, legs and a handle and can be ordered with red (standard), green, blue or amber digits.

- Water Polo Shot Clock functionality built in
- Displays minutes and seconds; counts up to 59:59 and rolls over to 00:00
- Assists in training for relay exchanges, start reaction time, turn speed, breakout time, and more.
