

ACCUSPLIT - AX850 15" PACE CLOCK

A high quality timer at an economical price. Accusplit's new AX850 brings the return of the swimming lane timer to our product line. With a 15" face, this clock-style timer is easy to see from far away. It's perfect for swim training but also can be used for any other timing. Very simple to operate, it is powered by 1" AA cell. A durable plastic housing in bright blue protects the mechanics. Counts up with 1 second resolution to 60 minutes than repeats. Features a base extension to help keep the unit upright in windy conditions.

AX850 15" Pace Clock \$159.95

COMPETITOR®

COMPETITOR 31" PACE CLOCK

31" electric or battery pace clocks—octagonal shape housing is engineered for optimum visibility. The face and hands are protected by a clear plexiglass lens. The electric model comes in 110V and comes with an 18 foot extension cord.

The battery model is powered by a single c-cell battery (included). Both models have easy access on/off switches for various uses. By using our roll-away stand the water resistant housing is ideal for deck use. The roll-away stand is made of tubular steel coated in Black. Mounted with two 5" wheels makes for easy moving. Clock dimensions are 31" x 31" x 5". Weight 20 lbs. The rollaway stand weighs 9 lbs. and comes unassembled.

KIEFER PACE CLOCKS

Kiefer clocks are fabricated using a sturdy, molded polyethylene body and plastic face with protective lens. Contrasting red and black markings and hands allow for optimum visibility. The minute hand can be easily repositioned through a rear access panel and controlled with a convenient start/stop button on the side. All models available in blue or yellow, 31" and 15" clocks also available in Red. Our 31" model is available in either batter or electric, 36" model is electric only, 15" model is battery only.

36" MODEL – Oversized 36" face has the best available visibility and complies with USA Swimming's Technical Facilities Standard Rule 103.16 for viewable clock face size requirement. Comes with wheeled cart/stand that can also be used as a wall mount.

36" MODEL – Oversized 36" face has the best available visibility and complies with USA Swimming's Technical Facilities Standard Rule 103.16 for viewable clock face size requirement. Comes with wheeled cart/stand that can also be used as a wall mount.

COLORS: Blue or Yellow.

31" MODEL – Concealed beneath the base of the clock is a stabilizing foot which easily swivels out of its storage position for added sturdiness in windy conditions. A built-in recessed handle on the back of the clock also functions as a wall mounting device.

COLORS: Blue, Yellow or Red.

15" MODEL – A very manageable 23" x 4"D, this clock comes with a comfortable handle at the top so that you can put it anywhere you need it. Sturdy, base keeps it upright. 15" face. Battery motor only. **COLORS:** Blue, Yellow or Red.
