

TIP N' ROLL BLEACHERS

Alum-A-Stands Tip N' Roll Bleachers are ideal for those areas and occasions where large permanent seating is unreasonable. Small gymnasiums, swimming pools, and other small meetings or event put Tip N' Roll to its best use. Each unit is equipped with permanently mounted 4" casters and wood sleepers to prevent scuffing or marking of floors.

If your local municipality codes require you to purchase bleachers designed under UBC97, BOCA96, IBC or some other building code – please call for price quotes on those bleachers.

All bleachers have 2"x12" single foot boards & seat boards w/ 6" rise per row w/ 24" run. Frames are all aluminum welded construction w/ treated wood ground sills. 5-row Bleachers include back & side Chain Link Fence (CLF) w/ riser for last row. (TR) indicates Tip & Roll Model.

Model	Description	Capacity	Ground Space	Door Opening Required (WxH)	Wt	Each	2+
TR-309A	3 row 9'	18	5' x 9'	3'0" x 5'	191	\$ 777.30	\$ 728.75

P·E·M AQUATIC MATTING

Reduce injury related risk and enhance facilities appearance.

- Textured surface reduces slippage under wet conditions.
- Porous construction:
 - Allows for moisture to flow through footing surface eliminating standing water
 - Allows for moisture evaporation beneath mat, reducing algae growth
- Soft P.V.C. construction provides comfort for bare foot traffic
- Contains MICRO-CHEK® Antimicrobial. A non-leachable biocide that guards against the growth of mildew, fungus, and bacteria.
- Protects bare feet from splinters on wood surfaces
- Reduces hot surfaces
- Resistant to wind uplift
- Lightweight making handling a breeze
- Cleans easily with sweeping or wash down
- U.V. stabilized material
- Excellent weatherability: -35°F to +180°F
- Resistant to environmental & chemical degradation
- Resist alkalis, acids, ozone and water borne chemicals
- Does not leach plasticizer

P·E·M® Matting is a heat and pressure bonded nonwoven, flexible plastic material. 100% P.V.C. monofilaments. Made from virgin raw materials.
