 specific number.

#1595 \$9.50
 #1597 Vinyl marker installation kit
 enough for 40 markers \$29.95

CAULK & SEALANT

VULKEM SEALANT 116 & 45

A one-part, polyurethane sealant. For
 use in expansion joints for swimming
 pools, decks and sidewalks, and is
 suitable for continuous immersion.
 Vulkem 116 is for vertical or horizontal
 joints. Vulkem 45 is self-leveling, for
 horizontal joints only.

#1570-W Vulkem 116, White 10.5 oz. cartridge \$7.95
 #1570-G Vulkem 116, Gray 10.5 oz. cartridge \$7.95
 #1572-W Vulkem 45, White 30 oz. cartridge \$22.95
 #1572-G Vulkem 45, Gray 30 oz. cartridge \$22.95

PERMANENT SEALER

Seals seams and cracks even under
 water. Leaking cracks have been
 successfully plugged when a pool is
 filled. Permanent Sealer will dry in

about 30 minutes under water. Comes
 in 10 oz. cartridges.

#1533-W Permanent Sealer, White \$6.95
 #1533-C Permanent Sealer, Clear \$9.95

POOL PUTTY

No need to drain concrete pools to
 repair leaks and cracks because pool
 putty hardens under water. Pool putty
 is packaged in convenient cartridges
 for an easy 1 to 1 mix. Approximate
 setting time at 70°F is 90 minutes.

#1534 Pool Putty 14 oz. unit \$13.95

POOL PASTE

A high strength epoxy in easy-to-use
 squeeze tubes. Creates a strong
 permanent bond to almost any material.
 Use pool paste to replace tiles or
 repairing cracked skimmers, fittings
 and accessories. Can be sanded and
 painted. Setting time is approximately
 90 minutes at 70°F.

#1535 Pool Paste 16 oz. unit \$17.95

POOL PASTE FAST SET

Pool Paste Fast Set lets you make
 repairs in 5 minutes or less, making
 it a speedy solution for hundreds of
 jobs. Easily mixed, 1-to-1, it bonds to
 any surface.

#1580 Pool Paste Fast Set 3/4 oz. unit \$6.95

BIG SKY WATER SLIDE

The Big Sky is the largest stainless steel water slide in Spectrum's PlayTime™ Series. Standing 10-feet (3.05m) tall, the Big Sky is certain to garner the attention of children of all ages. Due to its large size the Big Sky is meant for pools with a minimum water depth of 5-feet (1.52m). The 4-foot (1.22m) x 4-foot (1.22m) top platform provides a safe and comfortable vantage point for the facility's fun seekers. The platform, supplied with clear polycarbonate viewing windows, is the beginning of what we believe will be an awesome ride. A standard hose connection is all that's needed for water supply or the unit may be hard plumbed if desired. Spectrum's Big Sky slides are available in two model configurations; choose from the Big Sky and the Big Sky "S". The Big Sky's slide length is 31-feet (9.45m). The Big Sky "S", a faster version of the Big Sky, has a slide length of 28-feet (8.53m).

86540 Big Sky \$32,379.95

TETON WATER SLIDE

The Teton is undoubtedly the most versatile stainless steel water slide in Spectrum's PlayTime™ Series. Standing 6-feet (1.83m) tall the Teton is certain to attract the attention of children of all ages. Because of the Teton's medium deck height, pools with a minimum water depth of 4-feet (1.22m) may be accommodated. The 4-foot (1.22m) x 4-foot (1.22m) top platform provides a safe and comfortable vantage point for the facility's fun seekers. The platform, supplied with clear polycarbonate viewing windows, is the beginning of what we believe will be the ride of their lifetime. A standard hose connection is all that's needed for water supply or the unit may be hard plumbed if desired. The versatility of the Teton is witnessed in its ability to support one, two or three separate flume sections in a variety of configurations.

86545 Teton Single 90° Flume \$21,911.95
 86550 Teton Double Flume \$25,128.95

MAVERICK POOL SLIDE

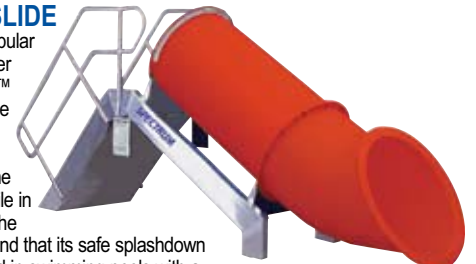

The Maverick is the largest of the relocatable stainless steel water slides in Spectrum's PlayTime™ Series. The Maverick waterslide is ideally suited for use on YMCA/YWCA, Club Pools and smaller community swimming pools that require the versatility of a relocatable water slide. Measuring approximately 8-feet (2.44m) to the top of the stair railing, the Maverick will gain the attention of children that are looking to have the time of their life. Transport wheels are removable for semi-permanent installation. All areas of the swimming pool having a minimum water depth of 4-feet (1.22m) may be accommodated. A standard hose connection is all that's needed to facilitate the thrills of young children and this water slide. The Maverick's slide length is 11-feet, 6-inches (3.51m) and is a straight run into the swimming pool.

86520 Maverick \$13,386.95

BEAR PAW POOL SLIDE

The Bear Paw is the most popular relocatable stainless steel water slide in Spectrum's PlayTime™ Series. Many facilities want the Bear Paw as it is designed to accommodate the specific needs of younger children. The Bear Paw is extremely versatile in that it can be moved around the pool deck with relative ease and that its safe splashdown requirement is accommodated in swimming pools with a water depth of 3-feet (0.91m) or more. The Bear Paw measures just a little over 6-feet (1.83m) to the top of the stair railing. Younger kids will be thrilled with the view from this vantage point, a perspective without the fear associated with the greater heights of larger slides. Swimming instructors may use the Bear Paw as a training aid for the younger swimmers - this play structure may help to overcome a toddler's fear of the water. Whether used as a training tool or just for fun the Bear Paw will be a welcomed addition to any facility. Transport wheels are provided for total portability.

86510 Bear Paw \$9,662.95
