Model #79

JIM-BUOY®

Model #80

RESCUE TUBE, Model #79 & #80

Both models feature bright International Orange vinyl coating for best visibility and lightweight foam body for handling comfort!

Model #79 – Recommended for general use in swimming pools and lakes. Features a huge section of resilient foam, 6" wide, 4" thick, and 49" long! Complete with an adjustable 2" wide nylon shoulder strap and plastic slide – no snaps, only a 2" loop near the flotation section.
Dimensions: 49" x 6" x 4" UPS O.K.

Model #79 **\$85.95 Each**

Model #80 – 3" x 36" size with soft, nylon security lines and one-piece polypropylene body belt. All hardware is stainless steel with Coast Guard approved government bronze snap hook – can't rust or corrode. Super soft, rounded body is coated with heavy marine vinyl for maximum durability.
Dimensions: 36" x 6" x 2-1/2" UPS O.K.

Model #80 **\$85.95 Each**

12-290 RESCUE TUBE

The Rescue Tube is a traditional wraparound tube designed for beach, lake or pool rescues. It can be handed to a victim for a close-in assist, or used to reach a struggling victim without contact, towing a passive unconscious victim, or even supporting the rescuer.

The Rescue Tube will never absorb water, rot or mildew because it is made from closed cell "Ensolite" and covered with a heavy-duty red vinyl skin. The safe quick-release buckle & 49" tow line with 28" looped end make pulling the victim to safety easy work.

Dimensions: 39-1/2"L x 6-1/2"W x 3-1/2" Thick
Weight: 3 lbs.

	Ea.	6+
12-322 Rescue Tube Slip Cover	\$34.95	\$31.95

RECREONICS THROW BAG

This lifesaving equipment is an appropriate alternative to loose, bulky rescue line. The Rescue Bag features a floating storage bag which allows for the rescue rope to be stored compactly until use.

Attached to the bag is a waste belt featuring a quick snap for immediate use. Available in two rescue rope lengths of 50' and 75' these units provide an effective alternative to life saving apparatus.

12-215 50' Throw Bag	\$57.25
12-216 75' Throw Bag	\$58.50

WOOL BLANKET

Made from wool/man-made fiber blend. Dimensions: 62" x 80"
Weight: 3 lbs. **12-448 \$18.95**

EMERGENCY SURVIVAL BLANKET

Made from thermal material and evolved from insulation used in space exploration. Reflects back 90% of body heat. Dimensions: 52" x 84"
Weight: 6 oz. **12-449 \$3.95**

POCKET MASKS

Lightweight and small, Pocket Masks are easy for you to carry whether at work, at school or on the road. Facilitates a patent airway. Moderate head tilt, jaw lift and opening of the mouth are all promoted. A transparent mask dome allows constant visual monitoring of the victim's mouth for lip color and secretions. The soft vinyl cuff of the mask shapes easily to the facial contours of all adult, infant and child patients. Pocket Mask improves ventilation effectiveness with simultaneous nose and mouth air flow. PVC construction allows easy cleaning. Also available is our Pocket Mask with oxygen inlet and patient head strap. When oxygen is readily available, the ideal alternative to bag mask rescuers during rescue and transport.
