

## Three Meter Diving Stand Standard Style

A rugged, dependable stand for heavy duty, recreational (noncompetitive) use. Double braced in both directions for added stability. High guard rails sweep well forward of pool edge. Furnished complete with anchors, hand adjustable fulcrum and all guard rails.

For additional information dimensions and specifications ask for:

**Dwg. No. 20.51. \$8061.10 ea.**

## One Meter Diving Stand Sturdee Style

A time tested, rigid stand because of its six legged construction. Rear rail included with one or two mounting steps. (if deck to water is 6" or less, choose stand with 2 steps; if dimension is more than 6" choose 1 step). Optional side rails available (see page 127). Furnished with anchors and hand adjustable fulcrum.

For additional information, dimensions and specifications ask for:  
**Dwg. 20.05. One Step: \$3757.40 ea. Two Step: \$4160.45 ea.**

## RAILS FOR DIVING TOWERS AND STANDS

Ladder hand rails: For 3 mtr. Paraflyte towers with ladder at rear (Series 1061 and 1062)

I.D. No. 12401	Ultraflyte	\$494.10 ea.
I.D. No. 12402	Superflyte	\$409.35 ea.
I.D. No. 12403	Topflyte	\$409.35 ea.

Front guard rails: For 1 mtr. Paraflyte towers with ladder at rear (Series 1081 and 1082)

I.D. No. 12404	Ultraflyte	\$565.80 ea.
I.D. No. 12405	Superflyte	\$380.65 ea.
I.D. No. 12406	Topflyte	\$380.65 ea.

Middle guard rails: For 1 mtr. Paraflyte towers with ladder at rear (Series 1081, 1082, 1091 and 1092)

I.D. No. 12407		
Ultraflyte Series 1081, 1082		\$697.45 ea.
I.D. No. 12408		
Superflyte Series 1081, 1082		\$501.90 ea.
I.D. No. 12409		
Topflyte Series 1081, 1082		\$451.70 ea.
I.D. No. 12410		
Ultraflyte Series 1091, 1092		\$708.55 ea.
I.D. No. 12411		
Superflyte Series 1091, 1092		\$451.70 ea.
I.D. No. 12412		
Topflyte Series 1091, 1092		\$451.70 ea.

## REAR ANCHOR

Used to anchor rear legs of all diving towers or stands or for any other application where there is an uplift on the leg being held. Two piece, heavy cast bronze construction. Upper flange is chrome plated. Body has threaded hole at bottom to allow addition of 1/2" diameter bolt, if required, for additional bond.

**I.D. No. 28201 \$218.35 ea.**

## FRONT ANCHORS

The Anchor Bolt Assembly is normally included as a standard component with all Paraflyte towers. The Flanged Stub or the Cage Anchor may be substituted as the anchor for the flanged pedestal. Substitutions should be noted in the specification and/or purchase order and will involve additional costs. Ask for Spec. Sheet 10.31.

**I.D. No. 12307 \$369.60 ea.**

## FLANGED STUB

Consists of a 3/4" thick steel plate welded to a 10" diameter pipe, with blind, threaded bushings. Can be used if the tower is supported by a foundation pad on grade or in a framed beam if it is at least 18" deep.

**I.D. No. 12301 \$751.55 ea.**

## CAGE ANCHOR

Must be selected as the pedestal anchor when the tower is to be supported on a framed slabs. Anchor consists of 3.4" thick steel plates, 3/4" threaded rods and threaded bushings, which can be made up to suit a beam or slab of any thickness greater than 6".

**I.D. No. 12304 \$1102.90 ea.**

**Caution: Diving equipment shown here should be used only on pools that conform to state or local codes, FINA, NCAA, NFSHA, and US Diving standards. These specify minimum dimensions for depth of water, length and shape of diving hopper, location or diving boards with respect to side and vertical clearances, etc.**

## Paraflyte, Ladder at Rear

Our best selling, general purpose model, suitable for competition and larger commercial or institutional pools. May be installed outdoors or indoors. Available with flanged or plain pedestal. Includes geared adjustable fulcrum and rear swivel. Spec. Sheets:
