

We will need detailed information on your pool facility when you are looking for quotes on:

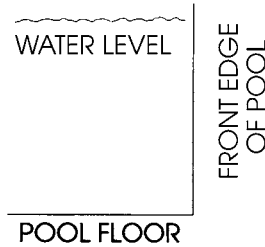

- Starting Platforms
- Dive Stands and Towers
- Ladders and Grab Rails
- Transfer Tiers and Special Needs Steps and Ramps
- Swim Lifts

Information we will need includes such details as:

- Pool depth where the item will be installed.
- Gutter Configuration with such measurements as deck to water height and wall of pool to setbacks of anchors for starting platforms.
- Deck information including what is the deck thickness and what is under the deck that may affect installation.
- Rules governing competition at your facility.

We have provided this gutter detail form for your convenience. **Make a photo copy of this page.** Please fill out the detail below that best represents your pool detail. If your pool gutter detail is not shown make any necessary changes to draw your own detail of your pool gutter.

CREATE YOUR OWN

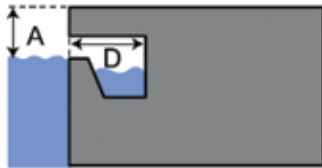

Deck to Water Level =

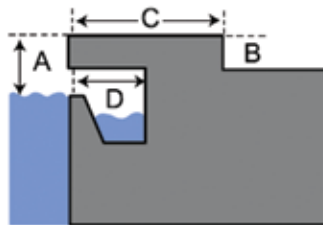

Please indicate water level and distance between water and deck level

1. Gutter Configuration:
