Taking Care of your Competitive Swimwear

The Fit:

Competitive Swimwear should fit snug to the body. Loose fitting suits will not wear as well as the suit that conforms to the body.

Care:

Never machine-wash your swimwear. Always just rinse your suit in fresh cold water after each use. This will help remove chemicals and perspiration that cause deterioration. Hang your suit up to dry. Never use the spin-dry machines or leave your wet suit wrapped up or in a towel or swim bag. To help preserve the color of your suit, remember that soap and shampoo used when showering contain detergents that fade a suit as well as pool chemicals.
